Dear valued patient,

We understand that we now live in a world where covid, flu, RSV, and the tummy bug run rampant through our schools, churches, and families. Because we want to continue to provide you with the best care possible we ask that you do not come into therapy while sick. If you have any symptoms at all please call the office to make your appointment a phone or video appointment. We understand this is not ideal for many but we live in a technology based time that allows us to do telehealth so an appointment is not missed. Our telehealth system is HIPPA compliant and we take every precaution to be in a private location during your visit. If you decide to reschedule rather than participate in telehealth therapy please recognize it may be your next scheduled time before we can get you in which will delay therapy for two weeks. We thank you for your understanding in this matter.

Sincerely,

Angela Stanley, MA, CMHC, NCC
